

THINKWARE DASH CAM

THINKWARE M1

* This Product is only compatible with vehicles that have a battery with a fuse box.

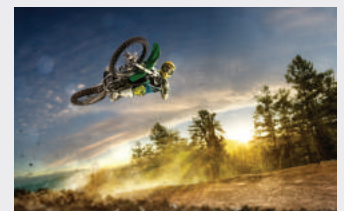

SNV with STARVIS

Record properly calibrated and exposed images in low-light conditions with the Sony STARVIS CMOS sensor.

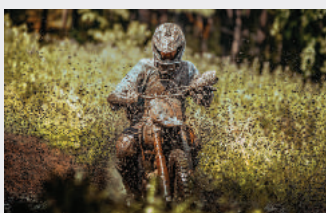

Front & Rear Recording

Record cinematic Full HD 1080p video coverage for the front and rear of your vehicle.

Advanced EIS

Reduces vibrations and minimizes motion blurring to ensure smooth and steady video recordings no matter what terrain you're riding on.

Weatherproof: IP66

Designed for durability and water-resistance, the IP66-rated M1 can withstand and record in the harshest conditions.

Start & Go

Forget the hassle of checking whether or not your camera is recording. The M1 will automatically start recording when you start the ignition, and power down when you turn it off.

Wi-Fi with Mobile App

Share moments with your friends and family by downloading video footage to your mobile device via Wi-Fi.

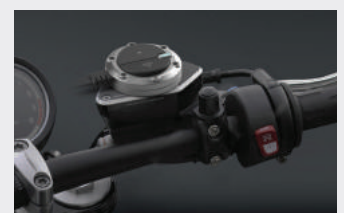

GPS for Speed Log

Get evidence of your fastest speeds alongside the video footage with the built-in GPS antenna.

Anti-File Corruption

Proprietary file management system eliminates data corruption and improves the reliability of the memory card.

Control Pad

Save memorable moments of your journey and store them in a dedicated folder with just one push of the manual recording button.
